Construction Details

Construction details define the approved assembly methods and manufacturing standards for the Rōnyn Jacket development sample.

Specification:	Requirement:
Seam Allowance:	1/2" (12mm) unless otherwise specified
Visiable Topstitch:	1/4" (6mm) from finished edge
Construction SPI:	12-14 SPI
Visible Topstitch SPI:	10-12 SPI
Interior Finished:	4 -Thread Overlock
Pressing:	Press all seams before topstitching

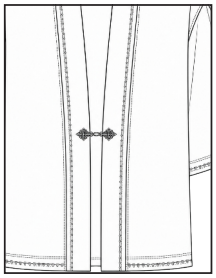

A COLLAR CONSTRUCTION

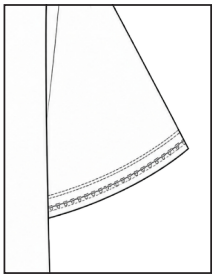

- Cut 2 collar pieces on fold.
- Join collar at center back and press seam open.
- Finish collar ends, turn right side out, and press.
- Match collar center back seam to garment center back neckline.
- Attach to neckline, overlock seam allowance, press toward garment body, and secure with 1/4" edge topstitch.

B REMOVEABLE FRONT CLOSURE

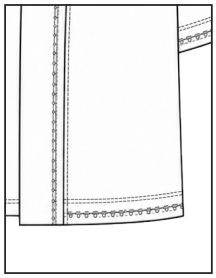

- Removeable brass clip closure supplied as a separate accessory.
- Closure is not permanently attached to the garment during production
- Intended to be positioned by the wearer along the lower third of the center front opening
- Package accessory with each finished garment

C SLEEVE HEM

- Fold sleeve hem 1" (25mm) to the garment intrior and press
- Turn raw edge under to create a clean double-fold hem
- Secure hem with a double needle topstitch
- Center signiture embroidery within the 1" finished hem
- Maintain consistent hem depth and embroidery placement on both sleeves

D BOTTOM HEM

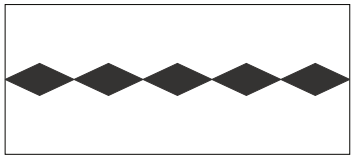

- Fold bottom hem 1" (25mm) to the garment intrior and press
- Turn raw edge under to create a clean double-fold hem
- Secure hem with a double needle topstitch
- Center signiture embroidery within the 1" finished hem
- Maintain consistent hem depth and embroidery placement on both sleeves

TOPSTITCHING SPECIFICATION

Shoulder Seam:	Topstitch 1/4" (6mm) for seam line
Collar & Front Edge:	Edge topstitch 1/4" (6mm) from
Front Panels:	1/4" (6mm) from finished edge
Side Panels:	1/4" (6mm) from finished edge
Sleeve Hem:	Double-needle topstitch on all folded hems
Interior Finished:	4 -Thread Overlock

SIGNITURE EMBROIDERY

- Signature embroidery consists of a continuous repeating diamond motif.
- Embroidery shall be centered within the 1" (25 mm) finished hem at all designated locations.
- Apply embroidery continuously from collar end to collar end, maintaining consistent spacing across the entire collar.
- Apply embroidery continuously around the bottom hem.
- Apply embroidery continuously around the finished sleeve hems.
- Maintain consistent motif spacing, orientation, and stitch quality throughout all embroidered areas.
- Refer to approved embroidery artwork for final dimensions, stitch count, and digitized embroidery file.
